## W. B. WILSON NAMED CHIEF DEPUTY; THREE OF PRESENT FORCE TO REMAIN IN RAMEY'S OFFICE

Charles M. Ramey, the new Democratic county clerk, today announced his office appointments, as follows:

W. B. Wilson, chief auditor; William Clegg, incumbent, deputy auditor; Alex L. Fife, probably to be assigned in charge of the poor board; Miss Edith L. Reid, incumbent, court reporter; Miss Winifred B. Geiger, clerk of the county commissioners; Wilford J. Young, incumbent, and David L. Fletcher, court clerk.

Mr. Ramey at the start is reducing the office office one person and probably two persons. The office hours for all employees will be from 8 a. m. to 5 p. m., one hour for luncheon.

Mr. Clegg, Miss Reid and Mr. Young, incumbents, retain their positions. Mr. Ramey said, on account of their 100 percent efficiency and popularity with the public. The four new appointees were selected from a large eligible list for the same reasons.

Mr. Wilson has had long and varied experience in railway auditor's office work and will be perfectly at home in his new position. He was former superintendent of county schools.

Mr. Fife is a former city detective and railroad man, well known throughout the county.

Miss Geiger is a former city employee and recently has been employed by the Glen Bros.-Roberts Piano company.

David L. Fletcher is new in public service and his friends predict for him a brilliant career. He recently was graduated from the Weber academy with the highest honors.

"Our sole aim," said Mr. Ramey, "will be to give the public the best possible service, with all the economy consistent with the highest efficiency. We will be in office to serve, and it will be no trouble to answer questions and to do promptly everything desirable in the line of duty."

## WATER WASTED MAY PROVE A SURPRISE TO OGDENITES

Consumption of ten feet of water, or three million gallons, from the smaller reservoir last Tuesday night, which was in excess of known needs and uses, still remains a mystery, but it is strongly suspected that a fifty per cent leak occurred somewhere.

Frank L. Hines, former water superintendent of Salt Lake, and Commissioner Miles L. Jones have just completed a superficial inspection of the water system and Mr. Hines, in concluding the inspection, said he was satisfied a plumb line test "would surprise the natives."

Mr. Hines said Ogden, like many other cities, loses 25 to 55 per cent of the water supply through leaky mains, defective service pipes, bad plumbing and "water hogs" who waste the aqua pura.

One night in Salt Lake, he said, in the wee sma' hours, when the residents were not using water, there was a consumption of 852,000 gallons, of which 95 per cent was waste.

Tests now in progress in New York City show a leakage of millions of gallons a day, said Mr. Hines, and recent tests in various cities show the same proportionate result.

Mr. Hines will probably co-operate with Commissioner Jones and the other officials in correcting, as soon as practicable, the cause of the enormous waste of Tuesday night.

## MEADA TAYLOR IS SUING FOR DIVORCE

Meada Taylor has brought an action for divorce against her husband, William Taylor, on the ground of extreme cruelty. She alleges in her complaint that he committed various acts of physical abuse towards her during the past year, which she bases as grounds for divorce. She further alleges that he is the owner of about \$6000 worth of property, and she asks the court for an equitable division of the same for her support and maintenance, and that he be restrained from selling or otherwise disposing of any of his property during the pendency of the divorce suit. Lawyer O'Connell appears as the attorney for plaintiff.

## WORLD'S MARKETS

New York, Dec. 16.—The probable attitude of the entente allies, toward the German proposals, as suggested 4.22c; January, 4.05c; March, 3.82c;

by the Russian duma's firm stand and other important events which served to discourage the idea of early peace negotiations, prompted much short covering during today's brief session. Specialties made further recoveries of two to five points with twenty-five for Bethlehem steel. Some of this advantage was relinquished in the dealings of the second hour. Rails again stood out for their consistent strength, the substantially augmenting recent gains. High grade issues also moved to higher levels. The closing was strong. Total sales were estimated at 750,000 shares. Bonds were irregular.

### Sugar.

New York, Dec. 16.—The market for sugar futures was irregular this morning, but trading was only moderate and mostly in the way of evening up. Closing prices were four points lower to one point higher, December 4.22c; January, 4.05c; March, 3.82c;

May, 3.86c; July, 3.92c.

Raw sugar dull; molasses, 4.40c; centrifugal, 5.27c; refined, dull; fine granulated, 7.15c.

### Chicago Hog Market.

Chicago, Dec. 16.—Hogs opened fairly strong today but demand was not large and the market soon eased off as sellers did not press offerings. Cattle trade was rather light but values held about steady. The bulk of the trade in the sheep pens today was buying on the part of killers from other trading points and prices were firm.
